

Be more prepared to successfully pass the Drone Pilot Test!

Drone Pilot Test Prep Course

To fly a drone under FAA Part 107, students need to pass the drone pilot knowledge test. This test prep course will better prepare you for the exam and provide a hands-on experience.

Students will be taught regulations, airspace classification and operating requirements, weather, loading and performance and operations specifics. At the end of this course, students will be better prepared to take the knowledge exam. Each session will include 2 days of classroom and 4 hours of hands-on training. Drones will be provided for the hands-on portion. Cost: \$650
