- This course is an elective that requires pre-testing, interview and selection by industry personnel only.

! - Students having taken PTAC 1352 or PTAC 1332 must take the PTAC 1432 Instrumentation I (currently change to PTAC 1332-2015) Course in place of the PTAC 2436 course. The PTAC 1432 course was implemented in fall 2006 and combines the Instrumentation I and Instrumentation II courses. The student is still responsible for completing the total credit hours for the degree program.

- - General education and core class prerequisites apply. Complete prerequisite information can be found in the class descriptions in the college catalog.

1 - All courses must be completed with a "C" or better.

NOTES: (1) All current catalog prerequisites MUST be followed. The prerequisites for older catalogs will not be honored. (2) This degree grid is for informational purposes only and does not constitute a contract. Students must meet all requirements of the college catalog in order to qualify for graduation. Catalogs expire and cannot be used for graduation after 5 years.
