3. College of the Mainland will enhance student engagement, keeping the students interested in staying on course.

4. College of the Mainland will provide high-quality instruction and instructional support services.
5. College of the Mainland will provide services/processes that enhance the integrity/safety/quality of the institution (including physical facilities) and that enhance the quality of the faculty and staff.
6. College of the Mainland will provide services/processes that connect the College to the community in a mutually growth-enhancing cycle.

WHAT IS THE QUALITY ENHANCEMENT PLAN (QEP)?

College of the Mainland's QEP topic is "Find Your Voice at COM: Oral Communication Across the Curriculum." Based on a two-year selection process, oral communication was chosen because employers cited oral communication as one of the top skills they seek from college graduates, while data indicated that this skill was not emphasized in College of the Mainland courses.

In fall 2013, College of the Mainland implemented the QEP by incorporating oral communication into selected classes, and additional classes will be added in 2014-15. The QEP-enhanced classes were selected based on high-enrollment in core curriculum courses and workforce programs. If our assessment indicates that students are improving their oral communication skills, oral communication will be incorporated into other core curriculum and workforce courses.

As a result of the QEP implementation, not only will our students gain confidence in their speaking skills but they also will be able to communicate their ideas in a clear, effective manner appropriate to their audiences. This, in turn, will enhance their ability to compete successfully in the workplace.

ADMISSIONS, RECORDS AND REGISTRATION INFORMATION

Admissions and Records Office Enrollment Center, Rm. 139
409-933-8264

The Admissions and Records Office is the place to begin the college experience at COM. Here and in the current credit class schedule you will find answers to admissions, readmission, transferring to or from COM, registration, adding or dropping courses, withdrawing from college and graduation questions. This is the place to complete the forms and other paperwork that are needed by every student.

Special Note: Notify the Admissions and Records Office immediately should you change your name, telephone, address or any other information that may affect your enrollment status or student record.

Six-Course Drop Limit (TEC 51.907)

A new law provides that undergraduate students enrolling as first-time freshmen at a public institution of higher education in Texas in Fall 2007 or thereafter will be limited to a total of six dropped courses during their entire undergraduate career. Please note the following information.

The six-drop limit includes all courses dropped from all Texas public colleges/universities you have attended.

Drops that count in the limit are those for which you receive a grade of W on your College of the Mainland transcript and those equivalent affected drops reported on transcripts from other Texas public colleges and universities. All of these combined cannot be more than six. If you started college in Fall 2007 or thereafter and then transfer to College of the Mainland from an affected Texas public college or university with six drops, the equivalent of W, you may not drop any additional courses at College of the Mainland. If you transfer with fewer than six, you may only drop the remainder at College of the Mainland.

After you have the equivalent of six grades of W from College of the Mainland and/or other affected institutions in total, you must receive grades of A, B, C, D or F if you drop additional courses.

Drops that don't count in the limit are those for which you withdraw from an entire term (you totally withdraw from all courses at the same time). This means that all parts of a term are considered as one term. (e.g., If you drop a three-week course (mini) but remain enrolled in a five-week or 16-week course, you will not have "withdrawn" for the term.) Please notify the Admissions and Records Office if it is your intent to withdraw before you drop so the courses can be marked appropriately. Drops from developmental courses do not count in the limit (any course with a "0" first in the course number, e.g., MATH 0305).

Courses taken while still in high school do not count in the limit. Once you enroll at College of the Mainland after high school graduation, any drops after that time will count.

If you attended college anywhere prior to Fall 2007, you are excluded from this law.

There are exemptions to this six-course drop limit including severe illness, care for a sick person, death of a family member, active duty military, withdrawing for the term, change of work schedule beyond student's control and other good cause as determined by the institution. These exemptions are requested from the Admissions and Records Office and must be made prior to dropping the course. Documentation is required.

You should fully understand this new drop limit before you drop any of your courses. If you have questions or need assistance, please visit Advising or the Admissions and Records Office.

Incomplete Grades

When a student experiences unforeseen circumstances that result in the inability to successfully complete course objectives, an I-contract (incomplete contract) can be requested from the instructor. The grade of "I" is a temporary grade given after an I-contract has been agreed upon and signed by both the student and instructor when, in the judgment of the instructor, the student can complete the course objectives with a minimum of professional assistance and without attending additional scheduled class sessions. A grade of "I" will be assigned to the official transcript and is a temporary grade given after the I-contract has been agreed upon and signed by both the student and the instructor. The "I" grade will be changed to a permanent grade when the conditions of the I-contract are completed. Should the student fail to complete the I-contract satisfactorily within the timeframe specified in the I-contract, the "I" grade will be administratively changed to a grade of "F" by the Registrar one year from the date the course officially ends (if the grade has not been changed previously by the instructor). The student will be notified of all grade changes in his or her record. A student receiving an "I" in a course that is a

prerequisite to another course may not enroll in the next course unless permission of the instructor and the student's academic advisor is granted.

FINANCIAL AID

Enrollment Center, Room A-150
409-933-8274

College of the Mainland can help students find financial assistance through federal, state, and local aid. Students can apply for financial assistance through the Student Financial Services Office or online through the website. The Student Financial Services Office assists students with grants, loans, scholarships and work-study programs. Assistance with filling out the Free Application for Federal Student Aid (FAFSA) is also available.

Carl Perkins Child Care Grant

The Student Financial Services Office administers a child care grant for low-income technical-vocational students. Students applying for the child care grant must be Pell Grant recipients enrolled full-time in a technical-vocational program.

Student Financial Aid Checklist

- Apply for admission to COM and have all required forms filled out prior to registration.
- Complete all financial aid forms as early as possible (FAFSA and COM Financial Aid Form) and by priority deadline dates.
- Provide accurate information that can be verified by supporting documentation.
- Provide verification of income (tax transcripts, W-2 transcripts) and other data as requested.
- Sign financial aid forms and statement of educational purpose as required.
- Read the COM Catalog for refund policies, courses offered, degree plans, tuition and fees and financial aid responsibilities and obligations.

- Notify the Student Financial Services and/or Foundation Offices of any change in address, name, marital status, income, course load, etc. Address changes must also be submitted to the Admissions and Records Office.
- Reapply for financial aid each academic year.
- For loan recipients, be enrolled in at least six credit hours each semester.

Important Financial Aid Policies

Change of Enrollment Status

Because of certain requirements regarding federal, state and veterans financial assistance, students who do not meet the attendance rules for class may be reported to the Student Financial Services Office for non-attendance or if their absences are deemed excessive. The Student Financial Services Office will then report the student's noncompliance to the funding source if applicable. The same applies if a student drops below the required semester hours credit or withdraws from the College. Pell Grant recipients will also be monitored because a change in enrollment status may require a student to return a portion of the grant to the federal government.

Financial Aid Repayment Policy

Students receiving federal and/or state loans and/or grants who withdraw from the College may be liable to repay all or a portion of the aid they received in accordance with federal/state law, donor requirements or policies and procedures published in the current college catalog. Students are strongly encouraged to be knowledgeable of their responsibilities and obligations regarding repayment of financial aid funds and/or loan defaults.

Financial Aid Warning/Probation

Following the first semester in which the standards of academic progress are not met, the student will be placed on warning for the next semester of enrollment. A student who fails to meet the standards of academic

progress during the semester of attendance while on warning will be placed on probation and denied further funding. Students who have attempted 150 percent of their degree or certificate program, usually 90 hours for a two-year degree or 45 hours for a one-year certificate program, are automatically ineligible for financial aid and are placed on termination.

Financial Aid Probation Appeal Policy

A student who has been placed on financial probation or termination may submit a written appeal with supporting documentation to the Student Financial Aid Satisfactory Academic Appeals Committee. The Appeals Committee membership consists of two (2) voting faculty members (a third is appointed to serve as an alternate in the absence of one of the two faculty members) and three voting representatives from the Student Services areas. The Director of Student Financial Aid and the Assistant Director of Student Financial Aid are non-voting members of the committee. A quorum consists of five members and at least three must be voting members.

Appeals are accepted for extenuating circumstances such as illness, death of an immediate family member or undue hardship. Students who have their appeals approved will be placed on an academic plan and continue on financial aid probation until they meet satisfactory academic progress or complete a degree. Appeal application forms are available online and in the Student Financial Services Office. Appeals will be reviewed at various times in each semester. Check with the Student Financial Services Office for dates and deadlines. If an appeal is denied, the student may file a written request to meet with the Appeals Committee if additional documentation can be provided. Decisions of the Appeals Committee are final.

The Student Government Association, which is made up of the leadership of all of student clubs and organizations, meets monthly. College administrators attend these meetings regularly to get feedback from students.

Student club and organization leaders are included in strategic planning, College retreats and other planning activities. Students also serve on a number of standing and ad-hoc committees. The student service fee is allocated to student clubs and organizations as well as used for student activity functions. A student activities fee committee meets annually, and students are involved in making decisions about the allocation of these funds. The Student Life Office designs and develops a comprehensive schedule of student life activities. All students are invited to participate in these events.

In addition, every board of trustees monthly meeting has a standing invitation for students to present ideas and/or concerns. Also, the College administration meets with students in a public hearing several times every academic year in order to hear students' concerns.

STUDENT'S RIGHTS AND RESPONSIBILITIES

The COM student, upon enrollment, neither loses his/her rights nor escapes the duties of a citizen. The student-citizen has a responsibility to other students, the state and the institution in which that student enrolls.

Standards of Student Conduct

College of the Mainland assumes that students eligible to perform on the college level are familiar with the standard rules governing proper conduct and that they will observe these rules. COM accepts the concept that where its interests as an academic community are involved, the legal and ethical authority of the institution should be asserted and maintained. These include Appropriate Dress, Scholastic Dishonesty, Disorderly Conduct, Prohibited Conduct, Federal, State, and Local Law, Prohibited Weapons, Drugs and Alcohol, Debts, Disruptions, Behavior Targeting Others, Property, Directives, Gambling, Tobacco and Misuse of Technology.

The rights and responsibilities are described in FLB (Local) policy on the College website at www.com.edu under the "About COM" and "Board of Trustees" links. Click on "COM Policies" and select "Students" under "Browse Sections."

Discipline

A student shall be subject to discipline, including suspension, in accordance with FM (Legal) and FMA (Local) if the student violates any Board policies or procedures or policies and procedures of any college district program:

1. While on College District premises;
2. While attending a College District activity; or
3. While elsewhere if the behavior adversely impacts the educational environment or otherwise interferes with the College District's operations or objectives.

Discipline and Penalties

When a student engages in conduct that violates the law, he or she is subject to college disciplinary action in addition to any action taken by a law enforcement agency or court of law. The Associate Vice President for Student Success and Conduct (AVPSSC) shall consider and take appropriate disciplinary action when violation of law, college rules and regulations, and other breaches of conduct by students are reported. The AVPSSC shall attempt to ensure the best interests of the offending student(s) and the College are served by making use of College counseling and other available resources as appropriate.

For more information see FMA (Local) policy located on the College website, www.com.edu, under the "About COM" and "Board of Trustees" links. Click on "COM Policies" and select "Students" under "Browse Sections."

Complaints Relating to Faculty

Code of Ethics

Any student who has a complaint about a College faculty member relating to a violation of the Code of Professional Conduct and Ethics (DH Local policy) has the opportunity to seek resolution of the complaint. All parties involved have the right to be represented by legal counsel or others. The College encourages all parties to use informal means to resolve complaints, if possible.

Grade Appeal

An academic appeal is a formal request brought by a student to change a grade. A request to change a grade or to challenge a penalty within the student grade appeal process must be made within six months of the assignment of the grade. Findings of the Grade Appeal Committee shall be final. If the Grade Appeal Committee recommends a grade change, the recommendation will be submitted to the appropriate Dean, who will initiate the grade change. A counselor, advisor, or mentor may advise the student on the

most effective approach to accomplish this request in a productive manner. The decision of the Academic Appeals Committee is final.

An appeal will not be considered because of general dissatisfaction with a grade, penalty, or outcome of a course. Disagreement with the instructor's professional judgment of the quality of the student's work and performance is also not a basis for an academic appeal.

The student must provide evidence that the instructor unfairly applied grading practices or violated College policy.

Procedure for Grade Appeal

Student Rights:

Students have a right to a clear explanation (from the instructor, department chair, or dean, as appropriate) of actions taken by the instructor, such as how a grade was calculated or how their actions violated the academic honesty policy.

Step One:

Before a student may bring an academic appeal, he or she should first meet with the instructor to request that a change be made. If the student is not satisfied with the outcome or cannot consult with the instructor, he or she must meet with the appropriate Department Chair to determine if a resolution can be reached.

Step Two:

If a resolution is not reached and the student desires to pursue the appeal, the student will state specifically the basis of the appeal in writing to the appropriate Dean. If the Dean determines that there is insufficient evidence that the instructor unfairly applied grading practices or violated College policy, he/she shall communicate this in writing to the student. If the Dean determines that the appeal may be appropriate under this

policy, he/she will contact the Associate Vice President for Student Success and Conduct (AVPSSC) to initiate the academic appeals process. The Dean will notify the student regarding the Academic Appeals Committee meeting date, his/her rights, and next steps in the process.

Step Three:

The Academic Appeals Committee will be convened by the AVPSSC within 10 days of the Dean's notification and will conduct its activities in private. The Committee will consist of two students (selected by the Student Government Association) two faculty members (selected by Faculty Senate), one Administrative Officer (named by the Vice President for Instruction), and the AVPSSC (non-voting member) will serve as facilitator for the grade appeal process. The student filing the grade appeal and the faculty member will be permitted to present witnesses and evidence relevant to the appeal. The student or faculty member may have a representative present but that person is not allowed to participate during the hearing. If the student has an attorney as a representative, the AVPSSC must be notified no less than five business days prior to the hearing. A four-fifths majority vote of the full Committee shall be required to change the grade, penalty or academic action at issue. The Committee will inform the appropriate Dean of its decision in writing. The Dean will notify the student, faculty member and department chair in writing of the Committee's decision.

Appeal Verdict

The decision of the Academic Appeals Committee is final.

General Provisions

The AVPSSC will ensure that appropriate documentation is maintained, that the rights of all parties involved are protected and that all time lines of appeal are followed. All time limits set for this appeal process may be extended by mutual consent of parties involved. Grade appeal records shall remain confidential unless permission is given by the student to release such information. Grade appeal records shall be maintained on file for three years after the completion of the appeal process.

DISCRIMINATION, HARASSMENT AND RETALIATION

Statement of Nondiscrimination

The College District prohibits discrimination, including harassment, against any student on the basis of race, color, religion, gender, national origin, disability, or any other basis prohibited by law. Retaliation against anyone involved in the complaint process is a violation of College District policy and is prohibited.

Any student who has a concern about the interpretation, application or claimed violation of his or her rights as a student of the College or feels he or she has been discriminated against or harassed on the basis of age, color, disability, national origin, race, religion, veteran status or sex has the right to seek resolution of such concern.

For complaints alleging discrimination, harassment (including sexual harassment) or retaliation, students shall refer to the Board policy FFD (Legal) and FFD (Local) located on the College website at www.com.edu, under the "About COM" and "Board of Trustees" links. Click on "COM Policies" and select "Students" under "Browse Sections."

General Provisions

The Associate Vice President for Student Success and Conduct and the appropriate vice president will ensure that appropriate documentation is maintained, that the rights of all parties involved are protected and that all time lines are followed. All written communication sent to the student will be done by certified mail. Student complaints regarding discipline are covered by separate procedures as presented elsewhere in this handbook. All time limits set for these grievance procedures may be extended by mutual consent of parties

involved. Grievance records shall remain confidential unless permission is given by the parties involved to release such information. Grievance records shall be maintained on file for three years after the grievance resolution. No grievance decision shall be recorded on the student's transcript. Only in the case as allowed by College policy would the complaint records be included in an employee's personnel record.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

Postsecondary officials are regularly asked to balance the interests of safety and privacy for individual students. While the Family Educational Rights and Privacy Act (FERPA) generally requires institutions to ask for written consent before disclosing a student's personally identifiable information, it also allows colleges and universities to take key steps to maintain campus safety. Understanding the law empowers school officials to act decisively and quickly when issues arise.

Health or Safety Emergency

In an emergency, FERPA permits school officials to disclose, without student consent, education records, including personally identifiable information from those records, to protect the health or safety of students or other individuals. At such times, records and information may be released to appropriate parties such as law enforcement officials, public health officials, and trained medical personnel. See 34 CFR § 99.31(a)(10) and § 99.36. This exception to FERPA's general consent rule is limited to the period of the emergency and generally does not allow for a blanket release of personally identifiable information from a student's education records. In addition, the Department interprets FERPA to permit institutions to disclose information from education records to parents if a health or safety emergency involves their son or daughter.

Disciplinary Records

While student disciplinary records are protected as education records under FERPA, there are certain circumstances in which disciplinary records may be disclosed without the student's consent. A postsecondary institution may disclose to an alleged victim of any crime of violence or non-forcible sex offense the final results of a disciplinary proceeding conducted by the institution against the alleged perpetrator of that crime, regardless of whether the institution concluded a violation was committed. An institution may disclose to anyone, not just the victim, the final results of a disciplinary proceeding, if it determines that the student is an alleged perpetrator of a crime of violence or non-forcible sex offense; and with respect to the allegation made against him or her, the student has committed a violation of the institution's rules or policies. See 34 CFR §§ 99.31(a)(13) and (14).

The Clery Act

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act requires postsecondary institutions to provide timely warnings of crimes that represent a threat to the safety of students or employees and to make public their campus security policies. It also requires that crime data be collected, reported, and disseminated to the campus community and to the department annually. The Clery Act is intended to provide students and their families with accurate, complete and timely information about safety on campuses so that they can make informed decisions. Such disclosures are permitted under FERPA. The following website provides more information about these and other provisions about campus safety: <http://www.ed.gov/admins/lead/safety/campus.html>.

Law Enforcement Unit Records

Many colleges and universities have their own law enforcement units to monitor safety and security in and around campus. Institutions that do not have specific law enforcement units may designate a particular office or school official to be responsible for referring potential or alleged violations of law to local police authorities. Investigative reports and other records created and maintained by these law enforcement units are not considered education records subject to FERPA. Accordingly, institutions may disclose information from law enforcement unit records to anyone, including outside law enforcement authorities, without student consent. See 34 CFR § 99.8.

While an institution has flexibility in deciding how to carry out safety functions, it must also indicate in its policy or in information provided to students, which office or school official serves as the college or university's "law enforcement unit." The institution's notification to students of their rights under FERPA can include this designation. As an example, the department has posted a model notification on its website at <http://www.ed.gov/policy/gen/guid/fpco/ferpa/ps-officials.html>.

Law enforcement unit officials who are employed by the college or university should be designated in the institution's FERPA notification as "school officials" with a "legitimate educational interest." As such, they may be given access to personally identifiable information from students' education records. The institution's law enforcement unit officials must protect the privacy of education records it receives and may disclose them only in compliance with FERPA. For that reason, it is advisable that law enforcement unit records be maintained separately from education records.

Disclosure to Parents

When a student turns 18 years old or enters a postsecondary institution at any age, all rights afforded to parents under FERPA transfer to the student. However, FERPA also provides ways in which schools may share information with parents without the student's consent. For example:

- Schools may disclose education records to parents if the student is a dependent for income tax purposes;
- Schools may disclose education records to parents if a health or safety emergency involves their son or daughter;
- Schools may inform parents if the student who is under age 21 has violated any law or its policy concerning the use or possession of alcohol or a controlled substance;
- A school official may generally share with a parent information that is based on that official's personal knowledge or observation of the student.

FERPA AND STUDENT HEALTH INFORMATION

Postsecondary institutions that provide health or medical services to students may share student medical treatment records with parents under the circumstances described above. While these records may otherwise be governed by the Health Insurance Portability and Accountability Act of 1996 (HIPAA), the HIPAA Privacy Rule excludes student medical treatment records and other records protected by FERPA. The Department plans to issue further guidance on the interplay between FERPA and HIPAA.

FERPA AND STUDENT AND EXCHANGE VISITOR INFORMATION SYSTEM (SEVIS)

FERPA permits institutions to comply with information requests from the Department of Homeland Security (DHS) and its Immigration and Customs Enforcement Bureau (ICE) in order to comply with the requirements of SEVIS. Officials who have specific questions about this and other matters involving international students should contact the U.S. Department of Education's Family Policy Compliance Office.

Transfer of Education Records

Finally, FERPA permits school officials to disclose any and all education records, including disciplinary records, to another institution at which the student seeks or intends to enroll. While student consent is not required for transferring education records, the institution's annual FERPA notification should indicate that such disclosures are made. In the absence of information about disclosures in the annual FERPA notification, school officials must make a reasonable attempt to notify the student about the disclosure, unless the student initiates the disclosure. Additionally, upon request, the institution must provide a copy of the information disclosed and an opportunity for a hearing. See 34 CFR § 99.31(a)(2) and § 99.34(a).

PERSONAL HEALTH AND SAFETY

HIV/AIDS/Communicable Diseases Policy

Communicable diseases include, but are not limited to, measles, influenza, viral hepatitis-A (infectious hepatitis), viral hepatitis-B (serum hepatitis), human immunodeficiency virus (HIV infection), AIDS, AIDS-Related Complex (ARC), leprosy and tuberculosis. For the purposes of this policy, the term "HIV infection" shall include AIDS, AIDS-Related Complex (ARC), and a positive test for the antibody to human immuno-deficiency virus. The College shall not discriminate in enrollment against any student solely on the ground that the student has a communicable disease. Members of the student body of

the College shall not be denied access to College facilities or campus activities solely on the ground that they have a communicable disease. The College reserves the right to exclude a person with a communicable disease from College facilities, programs and functions if the College makes a medically based determination that the restriction is necessary for the welfare of the person who has the communicable disease and/or the welfare of the other members of the College community. The College's decisions involving persons who have communicable diseases shall be based on current and well-informed medical judgments concerning the disease, the risks of transmitting the illness to others, the symptoms and special circumstances of each individual who has a communicable disease, and a careful weighing of the identified risks and the available alternative for responding to a student with a communicable disease. [See DBB (L)]

The College shall comply with all pertinent statutes and regulations that protect the privacy of persons in the College community who have a communicable disease. The College shall ensure that procedural safeguards sufficient to maintain the strictest confidence about persons who have HIV infection are in effect in all offices of the College.

College of the Mainland offers a comprehensive education program about HIV infection for members of the College community. To pick up a copy of the educational pamphlet on HIV infection issued by the Texas Department of Health, stop by the counseling center on the second floor of the Student Center or the gym lobby. Information about HIV programs offered at COM can be obtained by calling 409-933-8379.

Meningitis Vaccination Requirement

Effective Spring 2014, any new student attending the college must provide proof of meningitis vaccination 10 business days prior to the start of the semester. This requirement includes credit, transfer and Continuing Education students. There are limited exceptions to this requirement including students who are 22 years of age or older. For more information, visit <http://www.com.edu/admissions/meningitis-vaccinations.php>.

Personal Safety Tips

- Register your vehicle with Campus Police.
- Keep your vehicle locked. Don't leave your keys in your car and lock personal property in your trunk.
- Before entering your car, check for possible break-ins. If one did occur, report it immediately to COM Police Department (COM PD).
- Personal property should never be left unattended. Keep property with you at all times.
- Make a record of personal property, and record serial numbers.
- Promptly report to COM PD all suspicious persons, unusual situations or actions, suspicious questions or dangerous situations.

Medical Emergencies

COM PD is available and should be contacted for medical emergencies, too. Officers are trained in emergency first aid. For more serious injuries and conditions, COM PD dispatches medical assistance from the Texas City Fire Department and ambulance.

Student Insurance

The College does not provide District-sponsored insurance coverage for students while enrolled at COM. It is the student's responsibility to carry personal medical insurance. All students are encouraged to carry personal health and/or minor medical insurance. If a student does not have such

coverage, there are informational brochures available in Room 111 of the Student Center for the student's benefit. The College does not promote one company's product over another.

Tobacco Policy

COM is a tobacco-free institution. No use of any tobacco products is permitted. Smoking is allowed inside private vehicles if it is located in an approved designated parking area. Students are also permitted to smoke if no further than 10 feet from the streets or roads around the campus grounds. Smoking in the back of pickup trucks is permitted but is confined to the bed of the truck and not on the tailgate. Violators will be subject to a citation, disciplinary sanctions or expulsion from campus. Fines for violating the tobacco policy are \$25 for the first violation and \$50 for the second offense. A third offense will result in a referral to the College president, or designee, for disciplinary action up to and including expulsion from the campus.

Drug and Alcohol Policy

College of the Mainland supports a drug-free campus for students. While on school premises during any school term or off school premises at a school-sponsored activity, function or event, no student shall possess, use, transmit or attempt to possess, use or transmit or be under the influence of (legal intoxication not required) any controlled substance or dangerous drug as defined by law, including alcohol or any alcoholic beverage, any abusable glue, aerosol paint or any other volatile chemical substance for inhalation and any other intoxicant or mood-changing, mind-altering or behavior-altering drugs. The transmittal, sale or attempted sale of what is represented to be any of the above-listed substances is also prohibited. Students who violate this policy shall be subject to appropriate disciplinary action, which may include referral to drug and alcohol counseling or rehabilitation programs, referral to student assistance programs,

suspension, expulsion and referral to appropriate law enforcement officials for prosecution. A student who uses a drug authorized by a licensed physician through a prescription specifically for that student's use shall not be considered to have violated this policy.

Students who are experiencing a problem or difficulty with alcohol or drug abuse are strongly encouraged to become familiar with and use the counseling services that are offered by the College as well as the College's Drug and Alcohol Abuse Prevention Policy.

Reporting Accidents, Criminal Activities or Medical Emergencies

It is important that you contact COM PD immediately at 409-933-8599 in the event of a motor vehicle accident, criminal incident or medical emergency. This is the COM emergency number and is staffed 24 hours a day, seven days a week. It can be dialed from any phone on campus. When you dial 599, be prepared to give the following information to the dispatcher as calmly as possible:

- Your name and location;
- The type of emergency and location;
- Injuries if known; and
- Description of person(s) involved.

Remain on the phone until the dispatcher tells you to hang up. The dispatcher will call for an ambulance and/or the fire department, if needed. For non-emergency situations, call 409-933-8403.

If you are the victim of a sexual assault, do not clean or dispose of anything that could be preserved as evidence. COM PD will assist you in securing proper medical attention, the Crime Victim Assistance Officer will assist with follow-up services and resources, and the Vice President for Enrollment and Student Success will work with you in evaluating any changes relating to your academic needs.
