Drone Pilot Test Prep Course

Drones are now a part of every day life - both at home and work. To legally fly most drones under FAA Part 107 you need to have a pilot license which requires you to pass the drone pilot knowledge test. This course is designed to prepare students to better understand the information that will be tested on the exam and provide a hands-on experience. Students will be taught regulations, airspace classification and operating requirements, weather, loading and performance and operations specifics. The class will include 2 days of classroom and 4 hours of hands-on training. Drones will be provided for the hands-on portion. Cost: $650.00
