About the Career

Licensed practical and vocational nurses: $45,030 per year ($21.65 per hour)

Licensed vocational nurses provide compassionate care to patients in long-term care facilities and visitors to doctors’ offices. As the U.S. population ages, demand for vocational nurses continues to increase.

About the Program

The COM Vocational Nursing Program prepares students for rewarding careers through hands-on classes, labs, and clinical experiences at health care facilities. Professors teach small classes, are available for extra help, and dedicate themselves to students’ success. A nursing tutor is available for individual and group sessions at no cost to the student.

Notice to Students Regarding Licensing
Effective September 1, 2017, HB 1508 amends the Texas Occupations Code Section 53 that requires education providers to notify potential or enrolled students that a criminal history may make them ineligible for an occupational license upon program completion. The following website provides links to information about the licensing process and requirements: https://www.bon.texas.gov/licensure_eligibility.asp.

Should you wish to request a review of the impact of criminal history on your potential Registered Nurse License prior to or during your quest for a degree, you can visit this link and request a “Criminal History Evaluation”: https://www.bon.texas.gov/licensure_endorsement.asp.

This information is being provided to all persons who apply or enroll in the program, with notice of the requirements as described above, regardless of whether or not the person has been convicted of a criminal offense. Additionally, HB 1508 authorizes licensing agencies to require reimbursements when a student fails to receive the required notice.
